

GE Multilin Technical Note

UR-series custom LED labels

GE publication number: GET-8489

Copyright © 2005 GE Multilin

Description

A pre-cut adhesive sheet is available for the programmable LEDs on the front panel of the UR-series relays. A Microsoft Word template (GE publication number GET-8494, available from <http://www.GEmultilin.com>) allows for easy editing to create customized LED labels. Sample sheets are provided to align the paper to a particular printer.

Ordering

The order codes for the custom LED labels are indicated below.

Description	Order number
Set of 10 labels and 10 test sheets	18A0-0347
Set of 50 labels and 10 test sheets	18A0-0348

An image of the LED template is shown below. The editable template in Microsoft word format is available from the GE Multilin website (GE publication number GET-8494.
