Spending too much time and money managing your equipment?

*Administrative costs associated with tracking and managing equipment can negatively impact your bottom line. GE Instrumentation Services has the solution **AIMS***

***Asset Information Management System** – your online equipment management resource.*

This comprehensive, web-based, asset information management system is designed to help your business save time, save money and increase productivity.

Save Time...
Save Money...
Increase Productivity.

- 
- Asset Tracking and Reporting
 - Customized User-Defined Fields
 - Customer-Defined Access Levels
 - Enhanced Customer Support Tools

***AIMS** allows you to manage your test equipment quality processes. You can even conduct an audit from your desktop.*

GE–QUALITY • CAPABILITY • RESOURCES

For more information, please visit www.gecals.com for a comprehensive list of the services available. Or contact our National Call Center at 1-800-GECALS2 (432-2572) for further inquiries.

Current Features:

Asset Tracking

This complete database allows *you* to manage *your* equipment by processing data via queries. From *your* desktop, *you* may search for assets by:

- **Asset Number** (active and/or inactive)
- **Serial Number**
- **User-Defined Fields**
- **Date Range**
- **Manufacturer/Model Number**
- **Description**
- **Purchase Order**

Asset Reporting

You may also download equipment data via reports. From *your* desktop, *you* can create the following reports:

- **Turnaround**
- **Out of tolerance**
- **Billing**
- **In Process Status**
- **Equipment Due**

Customized User Defined Fields

AIMS enables *you* to customize *your* search by assigning each asset up to four user definable fields. *You* manage *your* equipment by the fields that *you* create.

Customer Defined Access Levels

You assign the levels of users that can access *your* equipment database. Types of users are:

- Administrator:** *Unlimited access to view information, make changes and create user definable fields.*
- Super User:** *View information and make limited changes.*
- User:** *View information.*

All users can perform queries and download reports.

Enhanced Customer Support Tools

- **View and Print Invoices**
- **Shipment Tracking with Links to Most Carriers**
- **View and Print Certificates of Calibration**
- **Ability to Track "Any" Asset**
- **Online Customer Support and Quality Documentation**
- **GE Instrumentation Services Lab Contact Information**
- **Calibration Industry Links and Other Important Information**
- **Secure, Nation-Wide Access to Your Test Equipment Records**
- **More to Come...**

AIMS  ...Turning *your* data into information.
