Introduction

Welcome to the Control Catalog!

This catalog is your comprehensive guide to product selection and pricing for GE electrical control products.

EDl (Electronic Data Interchange)

EDI is a direct computer-to-computer exchange of business documents – primarily purchase orders and invoicing. Using off-the-shelf software, it translates data into a format that can be transmitted electronically and input directly in the order entry system. EDI offers several benefits, including reduced paper handling and associated costs, reduced errors that can occur in manual processing, and simplified sharing of information. For more details about EDI, call 1-800-GE1-STOP.

On the Web

Visit us at www.geindustrial.com to learn more about GE. On the web you'll find detailed information regarding all of GE Industrial Solutions' product lines, including product pictures, specs, features and benefits. You can also visit the publications library to get quick and easy access to thousands of GE product and marketing brochures or order a hard copy of a brochure.

Plus there is information regarding New Products, Where to Buy, Service, Parts Online, Training, Trade Shows and more! Visit www.geindustrial.com today to answer all your GE questions.

The GE Smart Catalogs are available at:
Digital copies of publications are available at:
www.geindustrial.com/publibrary

EliteNet™

EliteNet™ is the GE Industrial Solutions' B2B (business to business) extranet system to customize and personalize your web experience. Visit www.geindustrial.com and click on EliteNet™ in the upper right corner to register. You still have access to all the great tools from the public web home page, plus you can customize the information you see to show only what matters most to you.

If you have an account with GE you can check orders, place orders, check price and availability of products, process returns and even review your payables status any day of the week and any time of day no matter where you are worldwide!

For easy access to technical information about our construction products, register on our consultant's EliteNet™. An account with GE is not required.

GE is committed to making your business more productive by providing simple access to solutions and answers.

Configurators

Direct served customers can find product configurators at:
https://select.geindustrial.com/elitenet (EliteNet sign-on required).

Key Contact Information

Customer Service
Customer service for all products listed in the Control Catalog, GEP-1260 and the BuyLog™, GEP-1100 can be obtained at:
GE
Customer Service Center
4880 Cox Road
Suite 200
Glen Allen, VA 23060
Telephone: 1 (800) GE1-STOP, (800-431-7867)
Email: ge.1stop@ge.com

Post Sales Service
Post sales service issues and warranty cases can be initiated and updated via EliteNet™ or contact:
1 (888) GE-RESOLVe (888-437-3765)

Component Support
Pre-sales application engineering support for component products can be found at:
(800) 327-8155 or component.support@ge.com

How to Order Additional Control Catalogs
Additional copies can be ordered via the www.geindustrial.com website or through:
GE
Distribution Services
PO Box 2913
Bloomington, IL 61702-2913
Telephone: (309) 664-1513
Fax: (309) 662-9660

AF-60LP™, AF-600FP™, AF-650GP™, and GEM™ are trademarks of GE.
A-Series™, BuyLog™, EliteNet™, Energy Saver™, MicroVersaTrip™, Power Break™, and Spectra™ are trademarks of GE.
Lexan™ is a trademark of GE Plastics.
# General Purpose Control Components

## Quick Index and Table of Contents

### Quick Index

1. **NEMA Full Voltage Power Devices**
2. **Reduced Voltage Starters**
3. **Lighting Contactors**
4. **Definite Purpose Controls**
5. **IEC Power Devices**
6. **IEC Manual Motor Starters**
7. **Miniature Circuit Breakers**
8. **IEC Switches and Disconnects**
9. **Pilot and Signaling Devices**
10. **Logic Control**
11. **Terminal Blocks**
12. **Enclosures**
13. **Control Renewal Parts**
14. **Transformers**
15. **Drives**
16. **GE Publication Index**
17. **Product Index**

### Table of Contents

#### Section 1: NEMA Full Voltage Power Devices

- **NEMA Rated Full Voltage Power Devices**
  - Application Information and Technical Data (300-Line)..............1-4
- **Magnetic Nonreversing Starters (CR306, CR386)**
  - Basic Features (300-Line) and Technical Features (CR306, CR386)..............................................................................................1-7
  - Non-combination, NEMA Sizes 00-9 with Thermal Overload Relays — Application Information and Selection Instructions (CR306, CR386).............................................................................1-8
  - Non-combination, NEMA Sizes 00-9 with Thermal Overload Relays (CR306, CR386).................................................................1-9
  - Non-combination, NEMA Sizes 1-6 with Solid State Overload Relays — Selection Instructions and Technical Features (CR306).................................................................................................1-11
  - Non-combination, NEMA Sizes 1-6 with Solid State Overload Relays....................................................................................1-12
  - Outlines and Dimensions (CR306, CR386).................................1-13
- **Magnetic Reversing Starters (CR309)**
  - Application Information and Selection Instructions...............1-17
  - Non-combination, NEMA Sizes 00-7 with Thermal Overload Relays, Three-Phase............................................................1-18
  - Non-combination, NEMA Sizes 00-1 with Thermal Overload Relays, Single-Phase..........................................................1-19
  - Outlines and Dimensions (CR309)..................................................1-20
- **Magnetic Two-Speed Starters (CR309)**
  - Application Information and Selection Instructions...............1-24
  - Non-combination, NEMA Sizes 0-5 with Thermal Overload Relays, Two-Winding............................................................1-25
  - Non-combination, NEMA Sizes 0-5 with Thermal Overload Relays, One-Winding.........................................................1-26
  - Outlines and Dimensions (CR309)..................................................1-27
- **Magnetic Nonreversing Starters (CR307, CR407, CR308, CR408)**
  - Application Information and Selection Instructions...............1-30
  - Nonfusible Disconnect Type (CR308, CR408)............................1-31
  - Fusible Disconnect Type (CR308, CR408)...................................1-32
  - Nonfusible and Fusible Part Number Configuration
    - Size 0-2, NEMA Type 1 (CR308)..............................................1-34
    - Size 0-4, NEMA Type 1, 3R, 12, 4/4X (CR408).........................1-37
  - Thermal Magnetic Circuit Breaker Type (CR307, CR407)...........1-42
  - Thermal Magnetic Part Number Configuration
    - Size 0-2, NEMA Type 1 (CR307)..............................................1-43
    - Size 0-4, NEMA Type 1, 3R, 12, 4/4X (CR407).........................1-46
  - Outlines and Dimensions .......................................................1-59
- **Mag-Break™ Magnetic Nonreversing Starters (CR387, CR487)**
  - Application Information and Selection Instructions...............1-50
  - Mag-Break Circuit Breaker Type (CR387, CR487).......................1-51
  - Mag-Break Part Number Configuration
    - Size 0-2, NEMA Type 1 (CR387)..............................................1-52
    - Size 0-4, NEMA Type 1, 3R, 12, 4/4X (CR487).........................1-55
  - Outlines and Dimensions .......................................................1-59
- **Magnetic Reversing Starters (CR310, CR410, CR311, CR411)**
  - Application Information and Selection Instructions...............1-64
  - Nonfusible Disconnect Type (CR311, CR411)............................1-65
  - Fusible Disconnect Type (CR311, CR411)...................................1-66

EP100 UC Series (Branch Circuit Protection) ........... 7-10
Series CA Auxiliary Switch and Bell Alarm ............ 7-12
Series CB Auxiliary Switch and Bell Alarm ............ 7-13
Shunt Trip and Undervoltage Release ..................... 7-14
Technical Data .................................................................. 7-15

Section 8: IEC Switches and Disconnects

ML Disconnect Switches
Introduction ............................................................................. 8-2
Mounting Styles and Availability ........................................ 8-3
Open Main Switches Product Tables ............................ 8-4
Enclosed Switches Product Tables ................................. 8-7
Emergency Stop Switches with Undervoltage Release ... 8-8
Accessories ................................................................. 8-9
Technical Data - UL, CSA and IEC Ratings ............. 8-10
Outlines and Dimensions .................................................. 8-11
Switching Diagrams - How to Read ............. 8-16
Switching Diagrams .......................................................... 8-17

Section 9: Pilot and Signaling Devices

Heavy-Duty 30.5 mm Watertight/Oiltight
Push Buttons (CR104P)
Introduction and Overview ............................................ 9-2
Standard, Non-Illuminated Push Buttons ................ 9-4
Standard, Illuminated Push Buttons ........................... 9-6
Mushroom Head, Non-Illuminated Push Buttons .... 9-7
Mushroom Head, Illuminated Push Buttons .............. 9-8
Key-Operated Push Buttons ............................................. 9-9
Special Function, Non-Illuminated Push Buttons .... 9-10
Special Function, Non-Illuminated Push Buttons .... 9-11
Special Function, Illuminated Push Buttons ............. 9-12
Protected Mushroom Head Push Buttons .............. 9-13
Pilot Devices, Standard Indicating and Push-to-Test .... 9-15
Pilot Lights, Cluster-Type and Remote Test Lights .... 9-16
Knob Operated, Non-Illuminated Selector Switches .... 9-17
Lever Operated, Non-Illuminated Selector Switches .... 9-19
Key-Operated, Non-Illuminated Selector Switches .... 9-21
Knob Operated, Illuminated Selector Switches ......... 9-25
Cam Logic Tables for Selector Switches ................. 9-30
Special Operators; Joysticks ............................................. 9-31
Special Operators, Potentiometer Operators ............ 9-32

Contact Blocks ................................................................. 9-33
Accessories, Components and Kits ......................... 9-35
Nameplates and Inserts ..................................................... 9-40
Kitted Operators (Hot Buttons) ................................. 9-42
Enclosures and Stations, Assembled with Push Buttons ... 9-44
Enclosures and Stations, Assembled Unwired .......... 9-45
Enclosures and Stations, Enclosure Only ............... 9-46
Enclosure Dimensions ..................................................... 9-47
Push Buttons, Technical Data ....................................... 9-48

Heavy-Duty 22.5 mm Watertight/Oiltight Push Buttons (C-2000)

Table of Contents/Quick Reference Guide
(Detailed listing for C-2000 Push Buttons) .................. 9-50
Introduction, Quick Reference Guide ...................... 9-50, 9-51
How to Select, Price and Order ................................. 9-52, 9-53
Nomenclature Keys ...................................................... 9-54 to 9-56
Standard Push Buttons .................................................. 9-57
Illuminated Push Buttons ............................................. 9-59
Mushroom-Head Push Buttons, Emergency Push Button ... 9-61
Illuminated Mushroom-Head Push Buttons .......... 9-63
Special Function, Non-Illuminated Push Buttons .... 9-64
Special Function, Illuminated Push Buttons ............ 9-66
Multi-Function Push Buttons ...................................... 9-68 to 9-69
Selector Switches .......................................................... 9-71
Pilot Lights ................................................................. 9-85
Push-to-Test Pilot Lights .............................................. 9-86
Special Operators ......................................................... 9-88
Power Supplies & Contact Blocks ......................... 9-92
Nameplates ................................................................. 9-95
Specially Marked Push Button Caps; Diffusers & Inserts .................................................. 9-99
Caps, Heads, Lenses & Handles .............................. 9-103
Plastic Enclosures, Nameplates, Contact Blocks & Power Supplies for Base-Mounted Pilot Devices ..... 9-105
Die-Cast Aluminum Enclosures .............................. 9-107
Sheet Steel & Stainless Steel Enclosures ................. 9-108
Accessories ................................................................. 9-110
Lamps ............................................................................. 9-111
Assembled Forms ......................................................... 9-113
Technical Data ............................................................. 9-119 to 9-125

Section 10: Logic Control

General Purpose Relays
Plug-in Relays Application and Features (CR420) ........ 10-2
Plug-in Relays Product Series Overview (CR420) ........ 10-3
Plug-in Relays Product Tables (CR420H and CR420J) .... 10-4
Plug-in Relays Product Tables (CR420K and CR420M) .... 10-5
Plug-in Relays Product Tables (CR420N) ..................... 10-6
Plug-in Relays Technical Data (CR420H and CR420J) .... 10-7
Plug-in Relays Technical Data (CR420K and CR420M) .... 10-8
Plug-in Relays Technical Data (CR420N) ..................... 10-9
Plug-in Relays Connection Diagrams (CR420) ............ 10-10
Plug-in Relays Outlines and Dimensions (CR420) .... 10-11

IEC Electronic Timers
IEC Electronic Timers Product Overview .................. 10-14
Multivoltage Electronic Timers Product Tables ........ 10-15
General Purpose Control Components

Table of Contents

Multivoltage Electronic Timers Technical Data..................10-17
Multivoltage Electronic Timers
Outlines and Dimensions..................................................10-24
IEC Protective Relays
IEC Protective Relays Overview........................................10-25
Liquid Level Detector Relays Product Tables..................10-26
Control and Protection Relays Product Tables...............10-27
IEC Protective Relays Technical Data.................................10-28
IEC Protective Relays Outlines and Dimensions..............10-36

Section 11: Terminal Blocks
DIN-rail Mounted Terminal Blocks (CR151K)..............11-2
Product Tables..............................................................11-3, 11-4
Accessories.................................................................11-3, 11-4
Technical Data...............................................................11-5
Outlines and Dimensions..............................................11-6
Panel or Mounting Track Terminal Boards (CR151B)......11-8
Product Tables..............................................................11-9
Accessories.................................................................11-9
Outlines and Dimensions..............................................11-10
Panel or Mounting Track Terminal Boards (CR2960)......11-10
Product Tables..............................................................11-10
Outlines and Dimensions..............................................11-10

Section 12: Enclosures
Enclosure Definitions.......................................................12-2
Enclosures for Non-Hazardous Locations......................12-2
Enclosures for Hazardous Locations.............................12-3
IEC Enclosure Protection...............................................12-4
Vynckier Non-metallic Enclosures.................................12-5
Overview........................................................................12-5
APO Series........................................................................12-7
VJ Series..........................................................................12-8

Section 13: Control Renewal Parts
Renewal Parts
For NEMA Rated 300- and 200-Line Magnetic Contactors,
and Starters, Sizes 00-7....................................................13-2
For Full-Voltage NEMA Rated Magnetic Contactors,
Starters and Relays, Sizes 00-5........................................13-5
For CR2943/2940 Push Buttons......................................13-6
For Solid State Reduced Voltage Starters,
ASTAT-IBP Plus............................................................13-7
For Solid State Reduced Voltage Starters,
ASTAT-CD Plus............................................................13-8

Section 14: Transformers
Machine Tool
Machine Tool Applications: Single-Phase (9T58K)
Product Tables..............................................................14-2
Control: Single-Phase (9T58K) Product Tables................14-3
Options and Fusing Guide..............................................14-5
Machine Tool Applications: Wiring Diagrams..............14-6
Outlines and Dimensions..............................................14-7
CE-Rated
Product Tables (9T58E)....................................................14-8

Dry-Type/Cased
Isolated, General Purpose, Single-Phase,
(9T51B and 9T21B) Product Tables.................................14-9
Isolated, CE-Rated [9T51E] Product Tables.....................14-12
Dimensions and Weights.................................................14-13
Wiring Diagrams...........................................................14-14

Section 15: Drives
AF-60LP™ Micro Drive
Product Description.......................................................15-2
Product Number System Diagram................................15-2
Pricing, Dimensions and Weights.................................15-3
Options, Accessories, and Replacement Parts...............15-4
Dynamic Braking Resistors..........................................15-5
Standard Specifications..............................................15-6
Dimensional Drawings.................................................15-7
Basic Wiring Diagrams.................................................15-9
AF-650GP™ General Purpose Drive
Product Description.......................................................15-10
Product Number System Diagram...............................15-10
Pricing........................................................................15-11
Options and Accessories.............................................15-13
Dimensional Drawings.................................................15-17
Basic Wiring Diagrams.................................................15-22
Dimensions and Weights..............................................15-23
Dynamic Braking Resistors..........................................15-25
Standard Specifications..............................................15-27
Replacement Parts......................................................15-29
AF-600FP™ Fan and Pump Drive
Product Description.......................................................15-42
Product Number System Diagram...............................15-42
Pricing........................................................................15-43
Options and Accessories.............................................15-45
Dimensional Drawings.................................................15-49
Basic Wiring Diagrams.................................................15-54
Dimensions and Weights..............................................15-55
Standard Specifications..............................................15-57
Replacement Parts......................................................15-59
AF-650FP™ Enclosed Drive Panels
Product Description.......................................................15-71
Drive Panels Product Number System Diagram...........15-72
Enclosed Drives Pricing................................................15-73
Enclosed Drives Options..............................................15-79
Dimensional Drawings.................................................15-80
AF-650GP™ Enclosed Drive Panels
Product Description.......................................................15-83
Drive Panels Product Number System Diagram...........15-84
Enclosed Drives Pricing................................................15-85
Enclosed Drives Options..............................................15-91
Dimensional Drawings.................................................15-92

Warranty Coverage and Technical Support Coverage,
Pricing and Procedures................................................15-94
General Purpose Control Components

Section 16: GE Publication Index
Publication Index........................................................................................................16-1

Section 17: Product Index
Product Index..............................................................................................................17-1
Complete Listing by Product Number with Price,
Discount Schedule, GO-Number, UL, cUL information
and page number reference.
The GE Smart Catalog™ Resource Center

Introduction

One-Stop Access to Catalogs
Get quick access to detailed product features, product numbers, specifications, dimensions, pricing and accessories. The following catalogs are available:

- Control Catalog — General Purpose Control Components
- BuyLog™ — Low and Medium Voltage Components and Equipment
- Aftermarket Catalog
- Standard Drives Catalog
